CALGARY Herald: Mr. R. R. Lendrum, of Prescott County, Ontario, went north this morning taking with him a car load of work horses and effects with him. He will settle near Edmonton.

Forty settlers from Washington arrived at Wetaskiwin on Thursday's train to settle east of that point. They brought 6 car loads of horses, and left 148 head of cattle in quarantine at the boundary.

C. O. SWANSON, Swedish immigration agent in the Eastern States, is applying for an assistant, as he finds the work growing beyond his ability to handle. His colonists are chiefly settled south east of Wetaskiwin.

The Manitoba Free Press, of June 5th appears in a new dress of type. The type is from the foundry of Miller & Richard, Edinburgh, the leading type foundry of the world. The Bulletin is printed on type from this foundry—in fact the leading papers use no other.

A foot tournament took place at the Jasper House on Tuesday evening, with nine competitors. Messrs. Patton and Smith won 7 games and lost 2 each and divided the first and second prizes. D. McCarthy and D. McNamara won six and lost three and were a tie for third money.

A flock of pelicans was seen passing over town on Saturday morning.

REV. C. A. PROCTOR leaves for Revelstoke on Friday to take charge of the Methodist congregation there. He preached for the last time in Edmonton on Sunday evening.

Mrs. Hardisty and Mrs. Dr. Wilson, on Tuesday forwarded the contribution of the ladies of Edmonton towards the proposed Canadian wedding present to the Princess Mary of Teck, bride elect of Prince George of Wales.

S. S. TAYLOR, barrister, returned from attending the supreme court en banc at Regina on Thursday's train. Crops in the Regina district look well and the town is growing rapidly. A large number of buildings of solid brick are being erected, including two large hotels, a new club building and the new C. P. R. station.

School Inspector Hewitt returned on Saturday from inspecting the schools of McKenzie, Beaver Lake and Victoria school districts. McKenzie school on the west side of Beaver Lake has 19 on the roll with 12 in attendance on day of visit. Beaver Lake school, east side had 13 on the roll and 8 present. Victoria had 13 on the roll and 9 present. The country through which Mr. Hewitt passed looks well, and crops at Beaver Lake and Victoria are well advanced. He was surprised to hear from Robt. Logan of Beaver Lake that tomatoes ripen there in the open air every year without special care.

Messrs. H. Somers Somerset and Arthur H. Pallen, arrived direct from England on Thursday's train, on their way to the Rocky mountains by way of Peace river, to hunt big game—with a preference for grizzly bears. Their course is yet undecided, but they will travel entirely by land and will be about about three and a half months. Messrs. Somerset and Pallen have hunted in previous seasons in Wyoming and California. They are now direct from England, only three weeks from home, and saw the opening of the colonial institute before they left. The detachments of Canadian Australian cavalry present were particularly well received and looked exceedingly well. Messrs. Somerset and Pallen will start north in a few days and will be accompanied by H. B. Round late of the H. B. service.

W. CLARK and T. Hyslop are running an extensive market garden this season on section 28, township 52, range 23, East Edmonton. They have ten acres in roots and vegetables and have been selling produce in town for the past two weeks. They expect to ship largely to Calgary. Their crop includes 2 acres of cabbage, of which 600 are early plants, 2,000 cauliflowers, 1,500 tomato plants all now in bloom and with the tomatoes forming nicely; half an acre of early peas, one and a half acres of beets and carrots, two and a half acres of potatoes, one third of an acre of seed onions, doing splendidly, there being no cut worms, quarter of an acre of pumpkins and turnips, 120 hills of cucumbers and squash, and trenches for 4,000 celery plants now nearly ready for setting out. Last year Messrs. Clark & Hyslop shipped over 3,000 head of cabbages to Calgary besides other vegetables. They expect to ship very much more largely this season. All their produce is looking well, and making excellent growth.

Petroleum! PETROLEUM!

For some months past it has been known that an important discovery of indications of Petroleum, had been made at Egg Lake, about 18 miles northwest of

Fort Saskatchewan

Some believed it and others did not. However, Mr. J. B. Tyrrell, of the Dominion Government Geological Survey, has visited the Lake, and satisfied himself that there are ample indications of petroleum development operations being begun. (Vide, Edmonton Bulletin, of 1st Instant.) This being so—what do the Dominion and Territorial Governments, and also the Canadian Pacific Railway, propose doing about it? And when? All three are equally interested. It is the duty of every person in Northern Alberta to make the most of such an important discovery of mineral wealth in our district, and to keep things agitated until something is done to develop or are we all dead to the advantages to be gained?

EDMONTON BULLETIN JUNE 12th, 1893

AN EXPLANATION.

Although the number of people coming to settle in the Edmonton district and all along the C. & E. line this season is very much greater than in any previous year it has not by any means equalled expectations based on the statements of the prospectors who visited the district last year and on the reports of the government immigration agents who were working in the States last winter and spring. This is particularly the case regarding the expected Washington immigration that is far and away behind the large expectations that were indulged in. One great reason for this is that the leading lights in the localities in Washington from which the people were expected to come are thoroughly stirred up on the subject, and everything that can be said or done to keep people from heading towards Edmonton is said and done. The private and public letters written by an occasional discontented arrival from Washington have been made to do great service. The man who has lived in such obscurity in that State as to never even see his name in the local paper, may now become famous in an instant by signing his name to a letter decrying Edmonton. This being the case it is doubly the business of the government and its agents to give no grounds for complaint or excuse for misrepresentation. Unfortunately this is not the course that is being followed. A number of recent arrivals from Washington complain of a clear breach of faith on the part of the government or its accredited agents. The facts are these. Last winter Messrs. J. G. Fitzgerald of Calgary and T. G. Pearce of Edmonton were authorized to canvas parts of the State of Washington for immigrants. Under some arrangement existing between the government and the C. P. R. these gentlemen were authorized to issue certificates to such parties as they were satisfied intended to come to the Northwest and become settlers entitling the holders and their families to a passenger rate of one cent a mile over the C. P. R. from whatever point they first reached the railway to their destination. In the cases complained of the people left their homes on the distinct understanding that a cent a mile for each member of a family would bring them through, and on arrival at the C. P. R. they were charged two cents a mile. To give a particular case so that the matter may be submitted to proof. On May 22nd three families from Palouse, Washington, landed at Edmonton. Two of the families were named Sims, and they required twelve tickets to bring them through. They held certificates from both Pearce and Fitzgerald entitling them to the cent a mile rate. On reaching Revelstoke, B. C., where they took the C. P. R., they were compelled to give up their certificates and were charged two cents a mile to Edmonton. The difference of double on twelve tickets is a rather important matter to people mid way on a long journey, who naturally would not have more cash with them than they expected they would need. But the distinct breach of agreement is the point that touches people most sorely. To have a distinct promise, which they were led to expect was as good as gold, unceremoniously set aside at a time when they were not in a position to help themselves, is most galling. If those who are working against the movement to the Northwest needed any argument this action of the authorities has supplied them, and we can only expect that it will be used for all it is worth. A case similar to the one mentioned in this article was brought to the attention of the BULLETIN early in April and the attempt was made privately to have the matter put right, but nothing has been done. This being the case and the same course being continued it is only right that the public should know from what source springs the damage which is being done to immigration. Of course two cents a mile is pretty cheap travelling, and if the government

and the C. P. R. came to the conclusion that one cent was too cheap they should in fairness and honesty have at once notified all holders of the cent a mile certificates of their intention to raise the rate. Then if the people had not already left home there would have been very little ground of complaint. But to double the rate without notifying those with whom they entered into a written agreement, is of a piece with the basswood policy under which North-west affairs have always been administered, and which has kept these Territories in the back ground to long. As a sample of policy the matter is not improved by a knowledge of the fact that immigrants from east of the Rocky mountains still get the cent a mile rate, or that people from the east in provinces of Canada are refused any reduction whatever.

A Reply to an Important Question.

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

LADIES', MEN'S AND CHILDREN'S DEPARTMENTS
House Furnishings, &c., &c.

Will be found a splendid assortment of goods which cannot fail to please, and at prices that must draw crowds of purchasers.

PERMITS.

Prince Albert Times.

It is the opinion of those who live in the Eastern provinces that the permit system in the Northwest Territories has been done away with, but such is not the case, only in part. This is still a country of permits. For many years there were three kinds of permits, but now there are only two. It is not necessary now to send to Regina to get a Royal permit, as the liquor permit system has been displaced by high license, but still the people here must get permits. If you want wood or hay, you must go to the government office and get a wood permit or hay permit. The system as carried out at present is greatly against the best interests of this part of the Northwest. The people should get all the wood and hay they require for their own use free of dues. It seems however, that the people here must pay twenty-five cents a cord dues for wood for their own use, but for shipping purposes the operator has to pay only ten cents a cord. This is a great injustice to the people who have settled here, so that some steps should be immediately taken to have this wrong rectified. Acres and acres of wood are harvested yearly by fire, yet even the wood through which the fire has passed, commands a price of twenty-five cents a cord. Those who want to cut hay on government lands and have been allowed to cut so much for nothing of stock, over that amount they are charged one dollar a ton. The ten cents a cord is not objectionable, but the dollar is, and should be immediately changed. This is in the interests of the country, as the past winter has proved that farmers and others should put up a much larger quantity of hay than is required for their own use, and not be charged any more for the privilege than if they were cutting it for their own use. It would be much better if the people were allowed to cut the hay free of dues, than to have it for the first time. These are matters for the board of trade to bring before the proper authorities and, if possible, to have them rectified.

GENERAL NEWS.

Cholera is spreading in France. Between May 22nd and June 1st there were fourteen cases and eleven deaths in Marseilles.

A public meeting held recently in Calgary unanimously endorsed a proposal to have the corporation purchase an electric plant and furnish light to the town.

Cholera is spreading with frightful rapidity in Asiatic Turkey. Thousands have died and fugitives from stricken towns are spreading the disease in every direction.

Macled Gazette, June 2: An interesting and imposing ceremony came off at the Roman Catholic Mission on Friday, when Insp. Davidson of the N. W. M. P. was formally baptised into the tenets of the Roman Catholic faith.

The white fishermen of British Columbia recently held an indignation meeting in New Westminster to protest against being crowded out of their occupation by Japanese and Chinamen. Even the native Indians employed by the salmon canneries are being replaced by Chinamen.

Free Press, Calgary despatch, June 3: A half breed boy named Ustang Paul shot and killed himself near Langdon on Saturday. He was cleaning a gun and had put on the cap and exploded it then put the muzzle into his mouth to blow down when the gun discharged blowing his head off.

The promotions of Francis Norman and Joseph Howe, inspectors of the Northwest mounted police to be superintendents is gazetted on June 3rd. Also the promotions of staff sergeant Wm. Henry Irwin to be an inspector and of Arthur Murray Jarvis sergeant major to be an inspector.

An Ottawa despatch to the Free Press: Disappointment is felt in government circles over the immigration returns for the first four months of the year. It was expected that the restriction imposed on immigration in the United States would result in largely swelling the influx of settlers to Canada but this hope has not been realized.

A farmer who resides near the boundary line on the Canadian side informs us that his taxes last year on a quarter section farm amounted to \$5.50 (there being no school taxes as yet) while just across the line in the much wanted land of the free, a friend of his had to pay no less than \$70 on his farm and effects, even his watch and sewing machine being taxed.—Morden Monitor.

Calgary Herald: We regret to hear of the death of Mr. Oliver Goodman, who was well known here, having resided in Calgary for several years up to a few months ago. He was drowned on Monday last, while attempting to cross the Red Deer river at the Sagard. Deceased was an Irishman and much respected by members of that nationality settled out here, among whom his sudden taking off will be greatly felt.

A New York paper says regarding the Chicago fair: A private letter from a prominent newspaper writer, who went to Chicago with instructions to give the fair the best possible show, contains these discouraging statements: "The fair up at Jackson park is a colossal fraud. There is absolutely nothing ready; everything is dirt, confusion, disorder; everybody is mad; and the directory is insolent, arrogant and incompetent. The scheme is run by a gang of official bluffs, but I fancy the thing can't run very much longer, for money is getting pretty scarce with them, and the attendance is very small. The Chicago press will say nothing against the management, yet every body is growing and kicking."

Nor-West Farmer: The swelling of the cream in the churn may arise from one of two causes. The mixing of cream that has not thoroughly ripened with that which has become a little acid, which may be the case with two lots of cream taken from the milk at the same time if one cow is fresh in milk and the other is not; or when the cream taken in the morning is mixed with that which is three or more days old. But as frequently it results from having the cream too cold. Modern buttermakers put in a little hot water, bringing the temperature up to 66°, and the churning goes on all right. The water at almost the boiling point seems also to have an effect to dissolve and separate some of the solids in the milk, and not only hastens the churning, but gives a great result in butter. After the butter has come in grains, wash it out in cold water to harden it, and take away all the buttermilk. The water will work better for the addition of a little salt, but both the water and the salt should be pure and clean.

The Fax concert company is on tour in Manitoba.

Calgary Herald: A prominent cattleman from High River reports that the grass this year is looking better than it has for the past six years. The weather this spring might have been made to order and the prospects for ranchers and farmers are of the brightest.

The Free Press interviewed the great and only N. F. Davin on home rule for Ireland. When Mr. Davin expressed himself as favorably disposed to the present measure, the reporter asked "And are you as a protestant Irishman in sympathy with it yourself?" Mr. Davin replied: "The bill is no repeal of the union. Gladstone is putting into the union a principle that we have found work well in Canada: that is all. If I thought there was any danger of dismemberment to the empire, I would cross the Atlantic and stump Ireland and England against it, but I do not; not the least. I believe it is a scheme taken to make the union workable. The Protestants in Ireland should not be there to oppose it: it is sure of success, and they should put themselves at the head of it."

Free Press, June 5: To-day a meeting of the central committee of the McCarthyites was held, when a league with the following objects was formed: First. To promote such tariff reform as will relieve the agricultural and wage-earning classes from taxation that they are now bearing in consequence of excessive protection, and to effectually and speedily accomplish the downfall of combinations and trusts, also to give preference, wherever practicable, to the Mother Land, and also to such countries, and more especially the United States as are willing to join with us in fair trade relations. The other clauses deal with the school and dual language questions on McCarthy's lines. The central committee will be composed of delegates from branches of the associations which will be formed throughout the country.
